Optimal protection for your perishables throughout the supply chain.
Preserves product quality from field to vase.

Preserving freshness of your roses

HOW IT WORKS

Effective barrier

- Controls evaporation
- Slow release system

Liquidseal for Roses post harvest
Results after 9 days at room temperature

CONTROL

WITH LIQUIDSEAL

Keeping roses fresh for longer - Nature's perfect creation, expertly protected by Liquidseal's eco-friendly coatings. Our coatings allow your roses to flourish in all their natural splendour, while remaining fresh and pristine throughout the journey from the field to vase. For red roses, a specially formulated coating with lower viscosity is used to enhance the quality and prolong the vase life. This coating is also available for other colors of roses.
